### INTRODUCTION

#### 1.1 Executive Summary

This Report is the Last in a series of Four Quarterly Progress Reports on the assessment of progress made in the implementation of activities outlined in the District Annual Development Plan 2013. It is a statement of progress made in respect of activities planned to be implemented in the Adaklu District Assembly Annual Action Plan of Work for 2013 and in further assessment of progress made in the achievement of specific objectives outlined in the District Medium Term Development Plan (DMTDP 2010-2013). The ultimate goal of the District Medium Term Development Plan 2010-2013 is to achieve an improvement in socio-economic development through the pursuance of massive infrastructure development and the development of human capital whilst enhancing good governance. Policy measures adopted for achieving the District Development Goal above have been prioritized under the seven Thematic Areas of the Ghana Shared Growth and Development Agenda

This Quarterly Progress Report is prepared from an assessment of status of indicators and targets adopted for monitoring and evaluating the achievements of activities/interventions earmarked for the year 2013. It also documents key interventions implemented during the quarter to bring about the desired changes in the indicators.

This report is presented in Four Chapters. Chapter one provides an overview of the Development Status of the Quarter and the M&E Arrangements, while chapter two presents a review of status of development projects and programmes under the seven thematic Areas of GSGDA. Chapter Three is devoted to the assessment of the performance of Core Indicators across the sectors of the District Economy and chapter four presents the recommendations and way forward.

## CHAPTER ONE

### Introduction

#### 1.1 Background

Annually the District Assembly commits significant resources to the implementation of activities aimed at improving the living conditions of its people. In order to measure the effectiveness of planned interventions or programme on the lives of the people a monitoring and evaluation arrangements have designed to track by agreed indicators, the progress of the project implementation and ultimately their impact against the planned intentions. This Report is therefore one such consolidated quarterly arrangement designed to show the link between programme/project Planning and implementation. The Annual Progress Reports therefore is an assessment of progress made in the implementation of activities outlined in the District Annual Development Plan 2013. It is a statement of progress made in respect of activities planned to be implemented in the Adaklu District Assembly Annual Programme of Work for 2013 and in further assessment of progress made in the achievement of specific objectives outlined in the District Medium Term Development Plan (DMTDP 2010-2013). The ultimate goal of the District Medium Term Development Plan 2010-2013 is to achieve an improvement in socio-economic development through the pursuance of massive infrastructure development and the development of human capital whilst enhancing good governance. Policy measures adopted for achieving the District Development Goal above have been those of the National Development Strategic Frame Work -Ghana Shared Growth and Development Agenda and include the following:

1. Ensuring and Sustaining the Macroeconomic Stability
2. Enhanced Competitiveness of Ghana's Private Sector
3. Accelerated Agricultural Modernization and Sustainable Natural Resource Management
4. Oil and Gas Development
5. Infrastructure and Human Settlements
6. Human Development Productivity and Employment
7. Transparent and Accountable Governance

This Quarterly Progress Report is prepared from an assessment of status of indicators and targets adopted for monitoring and evaluating the achievements of activities/interventions earmarked for the year 2013. It also documents key interventions implemented during the quarter to bring about the desired changes in the indicators

## **1.2 Rational for preparing the Report**

The basis for conducting District Based Monitoring and Evaluation stems from the fact that services can be continually improved through informed decision making. Systematic Monitoring and Evaluation of the DMTDP is key to providing the needed data that informs and shows the extent of progress made towards the achievement of specific programme objectives as outlined in the District Annual Action Plan and the relative contribution of the yearly progress to the achievement of the broader Medium Term goal. In sum the Annual Progress Report Monitoring and Evaluation exercise seeks to pursue the following specific objectives:

- ✓ Assess the extent to which specific DMTDP targets for 2013 were met
- ✓ Identify achievements, constraints and failures to inform future preparation of DMTDP and project design to achieve better impacts
- ✓ Provide information for effective coordination for District development at the Regional level
- ✓ Provide District authorities, the government, development partners, community project management teams and the general public with better means for learning from past experience.
- ✓ To improve service delivery and influence allocation of resources in the District.

Further to above, the District Monitoring and Evaluation system is intended to achieve the following:

- To ensure accountability for the use of scarce resources
- To find out if the projects implemented have solved the problems identified.
- To ensure sustainability of project.
- To ensure result based implementations

## **1.3 Processes involved and difficulties encountered**

The District Monitoring and Evaluation exercise was preceded by a DPCU meeting to discuss and agree on the focus, tools and expected outcomes of the M&E and to develop an M&E budget. A working team of the key stakeholders was formed including the following:

1. District Coordinating Director
2. Assistant Development Planning Officer
3. Assistant Budget Analyst
4. District Finance Officer
5. District Engineer

6. Rep. of Traditional Authorities
7. Rep. of Civil Society Organization

These key stakeholders visited the project sites and collected relevant data in order to measure progress of project implementations against planned target. A report is then given to other stakeholders, to inform them about issues identified.

### **Data Collection and Collation**

The DPCU undertook quarterly monitoring visits to all project/programme sites to collect relevant data on the status of implementation of planned projects and programmes. This was followed by a debriefing of the District Chief Executive on the outcome of the exercise.

There were two (2) levels of monitoring on each occasion; the first was the sector specific by sector Departments of their programmes and projects. Joint monitoring by two or more Departments was encouraged in situations where an intervention is cross-cutting in nature. The second level of monitoring was undertaken by the DPCU on the overall District development programmes, projects and activities.

In executing the monitoring task, there was an assessment of the extent to which indicators of programmes, projects and activities have been achieved. To ensure effective work and use of available human resources, the DPCU formed monitoring teams depending on the focus of the monitoring event.

### **Data Analysis and Use**

The DPCU lack the skills in using scientific methods and data analysis software such as MicroSoft Excel, Scientific Package for Social Scientist (SPSS), etc to analyze and interpret both primary and secondary data collected from the field and other relevant data sources. As such a rather slow manual means was employed to analyze the data. This however did not compromise the quality of the data analyzed.

The main objective behind the preparation of the District Monitoring and Evaluation Plan is to facilitate the tracking of the progress of development projects (on-going and completed) implemented in the District. The Monitoring and Evaluation Plan for the Adaklu District Assembly aims at achieving the following:

## **CHAPTER TWO**

### **REVIEW OF DEVELOPMENT STATUS UNDER THE SEVEN THEMATIC AREAS OF GSGDA**

#### **2.1 INTRODUCTION**

This chapter contains a review of specific programmes, projects and activities implemented during the quarter under review. It includes the summary of the status of programmes, projects and disbursement of funds.

#### **2.2 Ensuring and Sustaining Macroeconomic Stability**

The Major thrust of the District under this thematic Area was to increase Internally Generated Revenue Mobilization by 25% of the 2013 performance through the Compilation of reliable data on all assembly's revenue sources, undertake Education of tax payers on their obligations to the assembly, Value all ratable properties in the District especially two major towns and Recruit Revenue Collectors for Area Councils as well as Organize capacity building programmes for revenue collectors. Similarly, the Assembly was to ensure prudent use of the District Assembly revenue by Organize training for key public servant in the District on procurement, ensure the strict implementation of DMTDP and annual budgets, Ensure effective accountability in the utilization of District Allocated funds and to allocate 20% of Internally Generated Funds (IGF) for capital projects in the District

Some achievements were made in the implementation of above measures, notable among them was the initiatives to increase Internally Generated Funds which saw the collection of socioeconomic Data District-wide on all ratable properties which currently being compiled. It is expected when finalized; the database will be the basis for realistic Revenue Targeting and Projection and help increase effective collection by revenue officials. Similarly selected District Officials including Heads of Departments were trained on the Public Procurement Law. This was to enhance the judicious use of public funds.

These achievements notwithstanding some critical issues remained to be tackled these include the valuation of Physical Properties for the purpose of levying taxes to boost the IGF. The skills and number of revenue collectors remain unchanged due to limited funds to recruit and train new and old officers. These issues are expected to receive attention in the ensuing quarters.

## IMPLEMENTATION STATUS OF PLANNED ACTIVITIES

### Ensuring and Sustaining Macroeconomic Stability

Program/Project/Activity	Location	Level of implementation	Amount Spent (GHC)
Compile data on all ratable properties and persons	District-wide	Activity Completed	3,678.00
Undertake valuation on all properties	Adaklu-wayaa	Initiated actions to achieve results	2,220.00

Undertake performance review of the DMTDP	DA	Being implemented	3,500.00

### 2.2 Enhancing Competitiveness in Ghana's Private Sector

The role of the Private Sector is as crucial in the District Development Agenda as it is in the National Agenda as such the District efforts at accelerating its development were characterized by measures to improve access to land for private investment, facilitate the development of micro, small and medium enterprises (MSME) through the Provision of training and business development services, enhance access to affordable credit, make available appropriate but cost-effective technology to improve productivity as well as diversify and expand tourism industry for revenue generation and to vigorously promote domestic tourism in the District especially Kente Weaving.

Other objectives pursued in respect of accelerating the District Private Sector Development included the promotion of income generating opportunities for the poor and vulnerable, including women and food crop farmers, enhancing access of the poor and vulnerable to social protection

and Promote economic empowerment of women through access to land, labour, credit, markets, information, technology, business services and social protection including property rights

Seemingly important is the unprecedented support to the poor and vulnerable including People with Disabilities to undertake their individual development initiative with a portion of the District Assembly Common Fund. This is expected to enhance their status and a basic income for them to initiate their individual economic ventures.

One major constraint hindering the much needed development of this sector is the individual and uncoordinated nature of the sector. Dominated by peasants and largely illiterates with individual characters/traits some of which are detrimental to business prospecting; the sector deprives itself of receiving the needed investments due to high degrees of uncertainties that may be associated with that investments.

## ACCELERATED AGRICULTURAL MODERNIZATION AND SUSTAINABLE NATURAL RESOURCE MANAGEMENT

The focus of the District in accelerating Agricultural Modernization and Sustainable Natural Resource Management was to adopt measures aimed at reducing the risk associated with Agriculture. This was to be pursued through the development of appropriate irrigation schemes, dams, boreholes and other water harvesting technologies to enhance dry season vegetable farming. It was also to promote access to land by women for agricultural purposes and to provide selective subsidies for the agricultural sector for the procurement of improved seeds, grade breeders and stock, pesticides and fertilizers. Other programmes were intended at creating awareness about environmental issues among all stakeholders and to develop an effective and efficient framework for collaboration with appropriate agencies to ensure environmental compliance.

Other objectives were aimed at improving agricultural productivity through the development of human capacity in agricultural machinery management, operation and maintenance within the public and private sector as well as increase access to market facilities. Similarly, there were measures to promote selected crop for food security and the promotion of livestock and poultry development for food security and income

During the period under review some gains were made in the achievement of above including the arrangements for the delivery of subsidized inputs to farmers including fertilizers, insecticides and pesticides. The routine agricultural extension services helped in providing the needed guidance and advice to the ordinary crop farmers with the aim of increasing productivity. The livestock and poultry sectors also received technical services from the veterinary unit of the District Agricultural Development Unit.

## HUMAN DEVELOPMENT, PRODUCTIVITY AND EMPLOYMENT

The objectives of the programmes and projects implemented under this thematic Area were to improve access and quality of educational services delivery, improve access to quality health care as well as reduce the incidence of malaria and HIV/AIDS and other preventable diseases. These were to be achieved through the provision of Educational and Health Infrastructure. Significant achievements were recorded in this regard. A number of classroom blocks were initiated and expected to complete during the year. Similarly some health facilities were rehabilitated and plans were far advanced for the upgrading of the health centre in Way to a Health Directorate. The table shows the level of achievement under this thematic area.

### **3.2 EVALUATION AND PARTICIPATORY MONITORING AND EVALUATION**

The District implement participatory M&E by deploying the knowledge resources of its stakeholders including Civil Society Organizations and the community especially, poor people in the monitoring and evaluation processes through focus group discussion, data collection among others. It will also be achieved through consultative mechanisms including Area Council reports and Annual Progress Reports, which periodically

assesses the performance of District's and Area Council's interventions and their impacts on growth and poverty reduction

## **CHAPTER THREE**

### **THE WAY FORWARD**

#### **4.1 INTRODUCTION**

This chapter expatiates on the key issues considered in the Monitoring and Evaluation Plan of the District. It also includes recommendations given by the Monitoring Team.

#### **4.2 KEY ISSUES**

In the Monitoring and Evaluation Plan, some of the key issues considered were, poor road network, inadequate potable water supply system, inadequate accommodation for offices and residential accommodation for workers, high incidence of bush fires, low internally generated revenue, low level of women participation in decision making.

Other issues that are yet to be tackled are; low revenue generation by the Assembly, high incidence of bush fires, inadequate accommodation for offices and residential facilities for workers among others.

#### **4.3 RECOMMENDATIONS**

The following recommendation were made by the Monitoring Team

- Creation of data base information system. This will help the district and development partners as well as the Government to access information whenever they need them. The reason is to provide reliable information for planning and implementation management. Without reliable information, development managers cannot manage the implementation process effectively and efficiently.
- There is also the need to conduct another Poverty profiling and Mapping for the newly created district. This will help to know how poverty manifests itself among the different groups in the District.
- A maintenance plan should be developed for physical projects to ensure their long term sustainability in the various communities in the District

- Timely releases of Development funds from government will go a long way to enable the Assembly at delivering on its mandate of bring about development to its populace especially for those in the newly created District such as Adaklu DA.

#### **4.4 CONCLUSION.**

The achievement of the District Goal depends on a large extent the participation of key stakeholders in the implementation of the strategies outlined in the Annual Action Plans. This participation will not only provide the much needed resources but will also enhance transparency and accountability in the implementation of projects and programmes in the District.

Finally, the District though young has made several strides at bringing development to the people of Adaklu and it is the hope of the Assembly that well meaning citizen of Adaklu and all stakeholders would collaborate for the development of the District.
