## 2009 ANNUAL PROGRESS REPORT (APR)

### 1.0 INTRODUCTION

#### **1.1 Purpose of the Monitoring and Evaluation for 2009**

The primary intention of preparing Monitoring and Evaluation plan is to establish an efficient system for tracking the execution of programmes, projects and activities, and to produce timely reports to various stakeholders to enable them make informed decisions.

Report on annual progress of M&E is the mode envisaged to successfully compare outcomes with targets and thereby assessing project achievements on regular basis. Decision makers thereupon are informed about the outcome of progress, observation and the gaps at each level of activity.

Therefore the status of key indicators are of primary importance as they facilitate measuring achievement being made with regard to meeting developmental goals and objectives and targets outlined in the District Medium Term Development Plan. (DMTDP).

#### **The specific Purpose of the Report.**

The specific purpose of the report is to;

- To review actions on implementation of various interventions.
- To assess the performance of set indicators and targets which have been adopted for monitoring and evaluating the achievements of programmes and interventions implemented in 2009.
- To devise strategies and recommendations for addressing the shortfalls.

The district performance indicators report thus reports highlight and updates on the status of action taken by the Adansi North District on core and specific indicators in the GPRSII and M&E plan and captures additional indicators that have since been identified in the course of implementing programmes and projects. It has been recognized that as a result of the lessons learnt in the previous performance. Detailed analysis of this is found in the summary tables presented below;

- Data and information for preparation of the report were obtained from the decentralized departments and agencies as well as specific stakeholders.

- Data were initially difficult to collect due to improper documentation and inconsistencies. Added to this, was the difficulty of analyzing a number of new indicators which had emerged after the preparation of the GPRS II which did not have a baseline or existing data to support the setting of practical targets and monitoring.

## **I.2 Processes Involved and Difficulties Encountered**

Data and information for the preparation of report were obtained from the various decentralized departments and agencies as well as specific stakeholders in the district.

District Planning Co-ordinating Unit (DPCU) meeting was organized to provide an opportunity to departments and line heads or agencies to present details of their annual progress reports.

Every sector after presentation was given the opportunity to explain the reasons for their performance. They were made to answer questions from other sectors heads, elaborating the reasons for the sector performance either positively or negatively.

After thorough discussions, inputs from the various heads were used to prepare this monitoring and evaluation report.

Due to improper documentation of data, there were inconsistencies in data from almost all the sectors, but further probing helped in getting the correct data.

Inadequacy of updated data coupled with in availability of established baselines and targets, especially on many of the new indicators selected to track progress, posed another challenge to the effective monitoring of the implementation of the District Development Plan.

## **I.3 Status of Implementation of the Medium Term Development Plan**

Even though, the district strengthened its performance in the implementation of programmes and projects contained in the 2009 annual plan achievements were not significantly different from what was obtained in 2008. This could largely be attributed to the limited in flow of funding to the district.

Status of implementation according to sectors has been outlined below;

<b>TOTAL</b>	<b>400</b>

### **NEW MODULES YET TO BE IMPLEMENTED**

The programme is set to implement such modules as Youth in Trade and Vocation (Dressmaking), youth in Agric Business and Youth in Security Services. The District Office of NYEP has so far screened and selected six (6) out of the 28 Youths who applied for the Youth in Security Services Module. The six (6) successful applicants will sooner than later undergo training for not less than two (2) months. Ten (10) Youth from the District have also been selected to learn trade, dressmaking to be precise.

Registration for Youth in Agric. Module is still in progress. Under the youth in Agric Business Module, the District Office of NYEP in collaboration with the Adansi North District Assembly registered the Youth to learn the rearing of grass cutter, snail, mushroom and rabbit. Fish farming is one other lucrative businesses for which of the Youth have registered.

## **6.0 UPDATE ON THE CAPITATION GRANT IMPLEMENTATION IN THE DISTRICT**

The implementation of the Capitation Grant Policy started in the District from the 2006/2007 academic year. Since then, there has been regular release of funds to schools through the District office.

The amounts released to the District since the inception of the policy are as follows;

<b>ACADEMIC YEAR</b>	<b>AMOUNT (GHC)</b>
2006/2007	86,481.00
2007/2008	-
2008/2009	94,038.00
2009/2010	47,000.00 (1 <sup>ST</sup> Trench)

The District office deducts an amount of thirty-five Peswass (GHC.35) per child for standardized examination for all schools. This has facilitated the process of assessing performance of pupils for necessary action to be taken.

### **BENEFITS OF CAPITATION GRANT TO SCHOOLS IN THE DISTRICT**

Headmasters provide the following from the Capitation Grant;

- ✚ Supplementary reading books, text books, science equipments and computers.
- ✚ Environmental sanitation in schools have improved because there is regular supply of health needs like toiletries, drinking buckets and cups, towels as well as first aid drugs.
- ✚ Teaching and Learning Material are made available for teachers and this has enhanced effective delivery of lesson notes.
- ✚ Sports equipment and Cultural customs are made available for effective cultural and sports activities.
- ✚ Academic results have improved. In 2008/2009 academic year, the result was 65.08% as compared to the 2007/2008 academic year, which was about 62%.

## **7.0 UPDATE ON INCENTIVES FOR BUSINESS DEVELOPMENT IN THE DISTRICT**

The Adansi North District Assembly through Rural Enterprises Project provides incentives to boost business development in the District.

### **TRAINING PROGRAMMES**

Preparatory activities like Community Based Fora and Business Orientation Seminars are organized to introduce and identify specific needs of entrepreneurs.

Community Based Skills Training is organized to introduce new and improved technologies and also improve the technical skills of entrepreneurs. The technical skills adopted during the training builds their confidence to venture into self employment.

Small Business Management Training is also organized to improve the managerial and entrepreneurial competence of clients. The survival and growth of businesses largely depend on how well the entrepreneur understands the dynamics in the different stages of business growth.

Through these interventions, the District through Rural Enterprises Project has trained about **1,099** entrepreneurs and this serves as a great incentive boost for businesses in the District.

The District also through Rural Enterprises Project supports entrepreneurs to participate in trade fairs and exhibition shows. In 2008 and 2009, the District has supported six entrepreneurs to participate in the Mankessim and Asamankese trade fairs and exhibition shows organized by the Project respectively.

**SUPPORT TO GRADUATE APPRENTICESHIP**

The District also compliments the effort of the Rural Enterprises Project by fulfilling part of its agreement to provide equipments or tools to poor and underprivileged Graduate apprentices to start their businesses. In 2009, thirty (30) poor and underprivileged Graduate apprentices received various equipments and tools in their respective trades in the District.
